

MARS FHP V-Belts

The airMARS FHP V-belt has been designed specifically for solving the problems of minimum space, small pulley diameters, large ratios and fractional horsepower requirements. Excellent for air conditioning, refrigeration and appliance equipment. This series of airMARS belts uses only top quality material in order to have superior performance. All belts are manufactured under strict quality control standards.

94322	5L1000	1	10

To replace an "A" belt with a "4L" belt or a "B" belt to a "5L" use this simple formula:

Take the "A" size and add two then add a zero.

For the "B" size add three and add a zero

Example: A32= 4L340 or B32= 5L350

To replace the "4L" with an "A" belt or "5L" with a "B" belt simply subtract two or three and delete the zero.
