Four Sockets on One Wrench: Thru-Bolt™ 4-in-1 Ratchet Wrench

Use the **1-1/4" x 1-1/16"** hex socket end to tighten heavy hex 3/4" and 5/8" M.J bolts, clamps and tapping sleeves.

L4N1 #02690

Dimensions:
- Overall Length = 17"
- Socket Center to Socket Center = 15"
- Handle Thickness = 0.5"
- Head Diameter = 2.1"
- Socket Extension
  1-1/4" & 1-1/8" = 0.75"
  1-1/16" & 15/16" = 0.5"

- Dog Bone Style with 4 Socket Sizes: 1-1/4", 1-1/8", 1-1/16" and 15/16"
- Sockets designed to stay on the handle - meaning no loose sockets.
- Weighs Just 2-1/2 lbs (1.1 kg)
- 200 ft-lb Capacity
- Ergonomic Handle Grip
- Made in USA!

Use the **1-1/8" x 15/16"** hex sockets to tighten standard hex 3/4" and 5/8" flange bolts and equipment.

BONUS: Tightening nuts on long bolts or all-thread rod is never a problem with Reed's Thru-Bolt™ feature. These special sockets work by letting the bolt pass completely through the socket and arm head so nuts can be worked on any threaded length.

QUALITY & Service that Last a Lifetime
