WORLD LEADING PRODUCT INNOVATION

BRUSHLESS

OVER A DECADE AGO, MAKITA® CREATED BRUSHLESS MOTOR FASTENING TOOLS for assembly applications in the defense and aerospace industries, and in 2009 delivered the industry's first 18v brushless motor impact driver to contractors. Makita® BL™ Brushless Motor Technology **provides up to 50% longer run time, increased power and speed and longer tool life.**

GLOBAL

It all started with the motor over 100 years ago. Makita® Corporation was founded in 1915 as an electric motor sales and repair company. Today, as a global brand in over 40 countries, Makita® is an innovation leader, manufacturing best-in-class products at 10 plants operating in 8 countries. The unmatched quality and durability of Makita® products is driven by the company's strong R&D capabilities, and have earned the trust of professional users worldwide. Every day, on jobsites around the world, Makita® delivers the power, performance and durability that professional users demand with products that are more compact, have less vibration and feel better.

U.S.A.

Makita® Corporation of America is located in Buford, Georgia. As a part of our global network of ten manufacturing and assembly plants, Buford is one source of Makita® products used on jobsites around the world. Our product development team works closely with engineers on jobsites to develop products that exceed the demands of the American contractor. Buford, Georgia is also the site of the Makita® University, a hands-on educational experience where customers learn the latest technologies, products and applications.

QUALITY

High-Strength Steel

is used to manufacture gears and armature shafts, and graded to the highest industry standards

97% Pure Magnetic Copper Wire

delivers efficient current flow, and is engineered to withstand extreme temperatures for maximum power and longer life

Jobsite-Proven Lithium-Ion Battery Cells

are engineered for industrial performance and longer life

EXPERIENCE

Over 100 Years of Designing and Building Motors

Highest Quality Raw Materials

More Power and Less Weight in a Compact Size

Rigorous Quality Control Standards

Built for Industrial Jobsite Demands

Drill Bits

ULTRAFAST® Bits

- Advanced split point design - penetrates on contact
- Aggressive chisel and rake angles combined with improved flute clearances provide faster chip removal and drilling
- Premium high speed steel for a long life – 135° split point drills faster

Self Feed Bits

- Used by plumbers, electricians and other tradesmen for boring holes for pipe and conduit in wood
- Outlining spurs accurately define hole diameter
- Threaded screw point pulls the bit into the work providing a fast, easy to use self feeding action
- Heavy duty 1/2" shanks have 3 milled flats for secure fit
