

**DIAMOND DRY CORE BITS**

**OVERVIEW**

MILWAUKEE® Diamond Dry Core Bits are designed to the highest standards, using only quality diamonds. Available in sizes 1"–6", Diamond Dry Core Bits are ideal for drilling brick and block with no reinforcement. The large slots facilitate cooling of the bit as well as extracting the cores. The thinner wall provides increased drilling speed. This bit is 10" in length and contains a 5/8–11 thread.

**FEATURES**

- For use in masonry, brick, and block with no reinforcement
- 10" Drilling Depth
- Designed to be used dry
