

BURNS UP TO 3 HOURS

Duraflame® firelogs provide a robust, convenient and authentic fire experience.

MULTI-USE

Enjoy year-round! These firelogs are perfect for use in indoor fireplaces and outdoor fireplaces or fire pits.

FAST LIGHTING

Duraflame® firelogs are designed to light quickly with a single match, for beautiful, bright flames in under 5 minutes.

BURNS CLEANER THAN WOOD

Duraflame® firelogs light faster and burn more completely than firewood, and because far less material is consumed when burning a firelog, significantly fewer pollutants are emitted than a comparable wood fire.

Duraflame® 4.5LB Firelogs

Duraflame 4.5lb Firelogs provide up to three hours of warm ambiance, indoors or out.

Benefits

- Robust flames that last up to three hours
- Lights quickly – full flames in less than 5 minutes
- Burns 80% cleaner than wood
- Use in an indoor, open hearth fireplace or outdoor fireplace or fire pit
- UL approved safety classification for use in UL-listed factory built fireplaces
- Chimney Safety Institute of America Accepted Product

Save Trees

A duraflame firelog consumes 80% less material than a comparable duration wood fire, and burning firelogs instead of wood results in significantly fewer trees cut down for use as firewood.

Recycled & Renewable

Duraflame firelogs use recycled and renewable wood sawdust and agricultural fibers, saving valuable natural resources. The renewable fibers are mixed with blends of wax and other combustible, renewable materials.
