STANDARD

ducts have greater installation flexibility

COMPLETE KITS

Safely vent your clothes dryer using our UL Listed laminated transition duct kit. UL Listed laminated transition ducts are flame resistant, and can be used in applications where semi-rigid and rigid duct will not work. If you are not sure what venting components to purchase to complete the installation of your clothes dryer, then you should purchase a complete kit. Our kits include all components needed to properly vent from the clothes dryer exhaust to the outside.

kits below can be used to vent 4" bathroom fans

Kits Include  LISTED Laminated Transition Duct

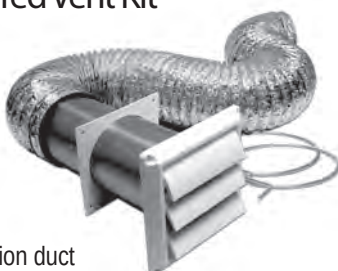

FLEXIBLE LAMINATED TRANSITION DUCT VENT KITS

1359W 4"x 8' Louvered Vent Kit
