
Product Overview

This vent adapter is to be used only in a surface mounted/freestanding installation of a Monterey and Forsaire Single Sided Heater. To be used when there is no blower installed.

This vent adapter is for use when typical venting installation cannot be followed - for example when the furnace is being vented into a chimney.

Measurements for this vent adapter are:

- 8-1/2" top to bottom
- 7" deep at the top
- 3-1/2" deep at the bottom

Includes Vent Adapter, Fiberglass Gasket and 4 #10 screws
