It's what makes a BLANCO, a **BLANCO**

BLANCO stainless steel is simply the best that can be made. The difference is in every detail.

Why *BLANCO* stainless? The answer is simple.

- BLANCO sinks are constructed to the highest manufacturing standard in the world. We use only premium grade steel made to OUR OWN demanding specifications, which are higher than the competition's.
- We feature a SATIN POLISHED FINISH which is exclusively MADE IN GERMANY. The Satin Polished Finish is the result of an extensive polishing process that creates an extremely CONSISTENT and LUXURIOUS appearance.
- Our SATIN POLISHED FINISH features the SMOOTHEST, most HYGIENIC and EASIEST-to-clean stainless steel surface available today.
- BLANCO's dedication to quality and use of superior materials is evident even on the underside of our sinks. Our innovative sound-deadening pads are the same used by **European luxury automobile manufacturers**.

Celebrating over 25 years of BLANCO quality and craftsmanship in the U.S.

In the U.S. for over 25 years and family-owned since 1925, BLANCO's humble beginnings included making copper galvanized parts for cookers and hot water bottles with a team of 30 loyal employees. Today, our company has produced more than 40 million sinks, and is recognized as a world leader in quality, innovation and unsurpassed service.

Long gone are the times when a sink was merely used for function. These days, it can be the muse for a kitchen – or perhaps an entire home. Because of our dedication to quality, we ensure that every sink is inspected multiple times before earning the BLANCO name. It's just part of our commitment to our craft and our customers.
