StatLink® 2 Zone Heavy Duty Exp. Module

Description

The StatLink® 2 zone heavy duty expansion module connects to the StatLink® 6 zone base module, allowing 2 more room thermostats to connect to their corresponding actuators.

Technical Data

| StatLink® 2 zone heavy duty expansion module #40242 |                                               |
|-----------------------------------------------------|-----------------------------------------------|
| Operating voltage:                                  | 24Vac ±10%                                    |
| Operating temperature:                              | 0 to 50°C (32 to 122°F)                       |
| Current rating                                      | 2.5A (max. 60VA transformer)                  |
| Max actuators (transformer 60VA):                   | 20                                            |
| Max actuators / Zone (15W):                         | 12                                            |
| Contact:                                            | Triac                                         |
| Dimensions:                                         | 159 × 88 × 58mm<br>(6-1/4" × 3-1/2" × 2-1/4") |
