NEW LAUNCH

10" H₂Okinetic[®] Showerhead

The feeling of more water without
using more water.

Discover a showering experience unlike any other.

Delta's H2Okinetic® Technology sculpts water into a unique wave pattern that delivers more warmth, intensity, and coverage — while using less water than a standard shower.

Highly engineered chambers (with no moving parts) inside the showerhead sculpt water into a unique wave pattern to save water and handle tough Indian water conditions better.

The oscillating pattern of the water also prevents build-up of mineral deposits, making the H2Okinetic® spray chambers self-cleaning.
